

# STREAMLINE™ X STREAMLINE™ X EZ

**THE TOUGHEST  
THINWALL DRIPLINE  
EVER MADE**

## **THE INDUSTRY'S HIGHEST QUALITY AND MOST DURABLE DRIPLINE**

The extra tough dripline with a unique ribbed surface acts as a barrier between the ground and the pipe, making installation and retrieval smoother than ever before.

### **Tough on the Outside**

External ribs protect the pipe from installation damage with maximum abrasion resistance.

### **Tough on the Inside**

Internal ribs minimize damage to dripper during installation.

# STREAMLINE™ X STREAMLINE™ X EZ

## THE TOUGHEST THINWALL DRIPLINE EVER MADE

Why settle for a lower quality 'tape' product? Streamline X and Streamline X EZ are the superior choice for your irrigation needs. A non-pressure compensating thinwall dripline with improved durability.

Streamline X is the best choice for seasonal row crop irrigation since it offers seamless construction, a low filtration requirement and flap outlet protection which deters soil ingestion and root intrusion.

## SPECIFICATIONS

### Exterior Ribbed Surface

Prevents against potential dripline damage during installation and retrieval.

### Wall Thickness

630 Series: 5, 6, 8, and 10 mil  
875 Series: EZ, 6, 8, 10 mil

### Interior Ribbed Surface

Internal ribs minimize damage to dripper during installation.

### EZ (875 Series)

Contains Netafim proprietary recycled material "ReGen".  
Easy to deploy  
Easy to retrieve  
Easy to recycle

### Injection Molded Drinker

Made of high quality polyethylene material welded into a wall of seamless tubing.

### High Strength Polyethylene Tubing

Improved durability and tensile strength for higher operating pressures.

### Value Added Packaging

Directional arrows on package assist with installation and identification. Reel end graphics provide guidelines for easier installation.

### Low Filtration Requirement

120 Mesh
